

Sephure Medication Sizing Chart

To Decide Correct Applicator Size (A2 or B3):

1. Print this page and use quarter to the right to check if print out is correct size
2. Align left most edge of suppository to left edge of sizing chart (A2 and then B3)
3. The widest width of the suppository determines which applicator is correct (height of suppository may vary from drawings below)

Sizing Chart

Correct Sizing

Incorrect Sizing
